

Don't mind commuting? We're looking for flexible order pickers for different warehouses! Full-time

What you are going to do

Description of the job

Do you enjoy time spent traveling in your car, as long as it's not always the same route to work? We're looking for order pickers to help out multiple warehouses. This is a project with a duration of 3 months, but it might be longer than that. You'll be working for one client who has warehouses in Mechelen, Vilvoorde, Schelle, Overijse, Meer and Merksem. As an order picker you look for boxes according to a pick list, scan them and move them. You'll be working at one warehouse for a couple of days to weeks before moving to another. Therefore it's important to have your own car. Travel allowance is taken care of, of course, and its calculated on the warehouse furthest from you.

What we ask for

- You're a go getter
- You have your own car
- You speak English, French or Dutch

What we offer

- A regular change of (work) scenery
- Travel allowance calculated on the warehouse furthest from your home
- Meal cheques
