

Productie operator 3 ploegen

Bornem

What you are going to do

Description of the job

Do you have experience in a production environment and are you looking for a new challenge? Then read on quickly!

For a production company in Bornhem we are looking for a responsible employee who likes to do physical work. You will be deployed as an operator where you ensure that the raw materials are mixed correctly by the machine and ensure that the end product ends up on the pallets. For this you check the raw materials, you move the bags from 15 to 25 kilos and with the forklift you move the pallets with the end product. Experience on a forklift is therefore required. Because the raw materials are converted into powder, the production environment is dusty, it is important that this is not a problem for you. You will work in a 3-shift system.

What we ask for

- You speak Polish and/or English
- You are responsible and can handle physical labour arbeid
- You are also someone who sees work
- You have experience on the forklift, a certificate is not a requirement, but a plus!

What we offer

- You will end up in a growing company that you can grow with
- Of course you can count on a good salary, supplemented with a shift allowance
- You work from Monday to Friday in a 3-shift system
- Sporadically once on a Saturday
- After a positive interim period you have a chance of a permanent contract
